MOBILE
FIELD
SHELTERS

QUALITY WITHOUT COMPROMISE

Clydesdale mobile field shelters combine the renowned build quality of our sectional timber buildings with all the convenience and flexibility of a moveable unit. Dependant on your area, planning permission may not be necessary – offering an immediate solution for your urgent stabling needs.

COMPARE AND EVALUATE

Stables represent a substantial investment, and we strongly recommend customers to compare our buildings first-hand with any other manufacturers being considered.

SPECIFICATION

| | |
|------------------------------------|--|
| CHASSIS: | Fabricated steel, galvanised in accordance with BS EN ISO 1461. Designed and engineered to allow load dragging over relatively flat and even ground the welded chassis incorporates front and rear fixed skids, with permanent towing collar |
| SIZE: | Depending on requirements and on towing vehicle |
| ROOF LIGHTS: | At least one per shelter |
| HEIGHT TO EAVES: | 8' |
| HEIGHT TO RIDGE: | 9'6" |
| ROOF: | Corrugated, low-condensation black Onduline with 15-year manufacturer warranty (other colours available) |
| PRIMARY TIMBER TREATMENT: | Protimised, 25-year guarantee |
| COLOUR/SECONDARY TREATMENT: | Mid Brown Cuprinol timber preservative |
| TRUSSES: | 3" x 2" (75mm x 50mm) Redwood |
| PURLINS: | 4" x 2" (100mm x 50mm) Spruce |
| FIXINGS: | Galvanised throughout |
| GUTTERING: | Guttering and downspouts optional |
| FRAMING* | Planed and eased Redwood 3" x 2" (75mm x 50mm) |
| CLADDING** | Vertical 6" x 1" (150mm x 25mm) tongue & groove Redwood |
| KICKING BOARDS*** | Sterling board to 4' height |
| VENTILATION: | Ridge and eaves ventilation |

*The 3"x2" (75mm x 50mm) framing provides a more rigid and robust construction than can be achieved with 38mm softwood framing. This is also a joinery grade Redwood, which is planed and eased for a pleasing appearance and to minimise the risk of splintering which can occur with unplanned softwoods.

** Our 25mm (nominal) cladding is significantly stronger than the 19mm shiplap cladding typically specified by others.

*** Please note all kicking boards are braced Sterlingboard to 4' (optional to eaves height), we will not install plywood due to the inherent risk of damage to fetlocks in the event of penetration.

DELIVERY AND ERECTION

Mobile field shelters can be delivered and erected to most parts of the UK and Europe using our own team of skilled joiner/installers. Delivered-only prices available on request.

FURTHER INFORMATION

Clydesdale manufacture a full range of permanently fixed field shelters, stables and American barns in sizes to suit individual requirements. For further sales, quotations or technical information, please contact our customer service team on **01663 746784** or visit our website at www.clydesdale-timber.co.uk
