Clydesdale

SIMPLY WITHOUT EQUAL

You can't mistake the quality of a Clydesdale loft. Made to your own specification they're a true investment for the serious loftowner - superbly built, a pleasure to use and a pride to own - giving years of comfortable, healthy and reliable housing, so ensuring the best possible performance from your birds.

TRADITIONAL DESIGN, ROBUST PERFORMANCE

Our buildings are extremely durable and weatherproof. We manufacture using traditional vertical cladding, a construction that is attractive, very strong and provides excellent resistance to driving rain.

The cladding is 1" thick V-jointed Redwood (nominal size) with a deep T&G interlocking profile. This joinery-grade timber is pressure-treated with preservative (Protim) and given a secondary coat of Cuprinol to provide further protection and give an attractive finish.

The framing is 3"x 2" Redwood, a planed timber with the edges 'eased' to minimise the risk of splinters. All fittings are a heavy duty grade and fully galvanised.

It is this high specification of materials and attention to detail that makes Clydesdale lofts the benchmark for quality and design.

UNIQUE SEVEN YEAR WARRANTY

The quality of Clydesdale lofts is underlined by our unique **7-year warranty**, unmatched by any other loft manufacturer and your reassurance of total satisfaction.

VENTILATION - THE KEY TO A COMFORTABLE, HEALTHY LOFT

Fresh air and good ventilation are the foremost requirements for a healthy loft environment. Our designs, developed with specialist consultants, ensure optimum, draught-free movement of air.

SERVICE AND SUPPORT

Our customer service team can offer design advice, planning assistance or arrange local site visits to view a Clydesdale loft or speak to current owners. All buildings are erected on site by our own team of joiners, or can be offered on a 'delivered only' basis. We supply and erect to most parts of the UK, Eire and mainland Europe.

CHOICE, FLEXIBILITY AND CONVENIENCE

Clydesdale manufacture many loft styles and designs to any size or configuration, and customers can choose from a range of options for corridors, partitions, ceiling systems and roof materials to suit your individual requirements.

INVEST IN THE BEST

You could be forgiven for thinking that the superior specification and build quality of a 'Clydesdale' would be hugely expensive.

You'd be wrong.

Whilst not the cheapest, certainly, they do represent extremely good value and are quite simply without equal. Take into account the durability, the added security for your birds, the pleasure and pride of ownership of a Clydesdale - and the significant residual values that attach to our lofts... and you'll see why our customer satisfaction is so high.

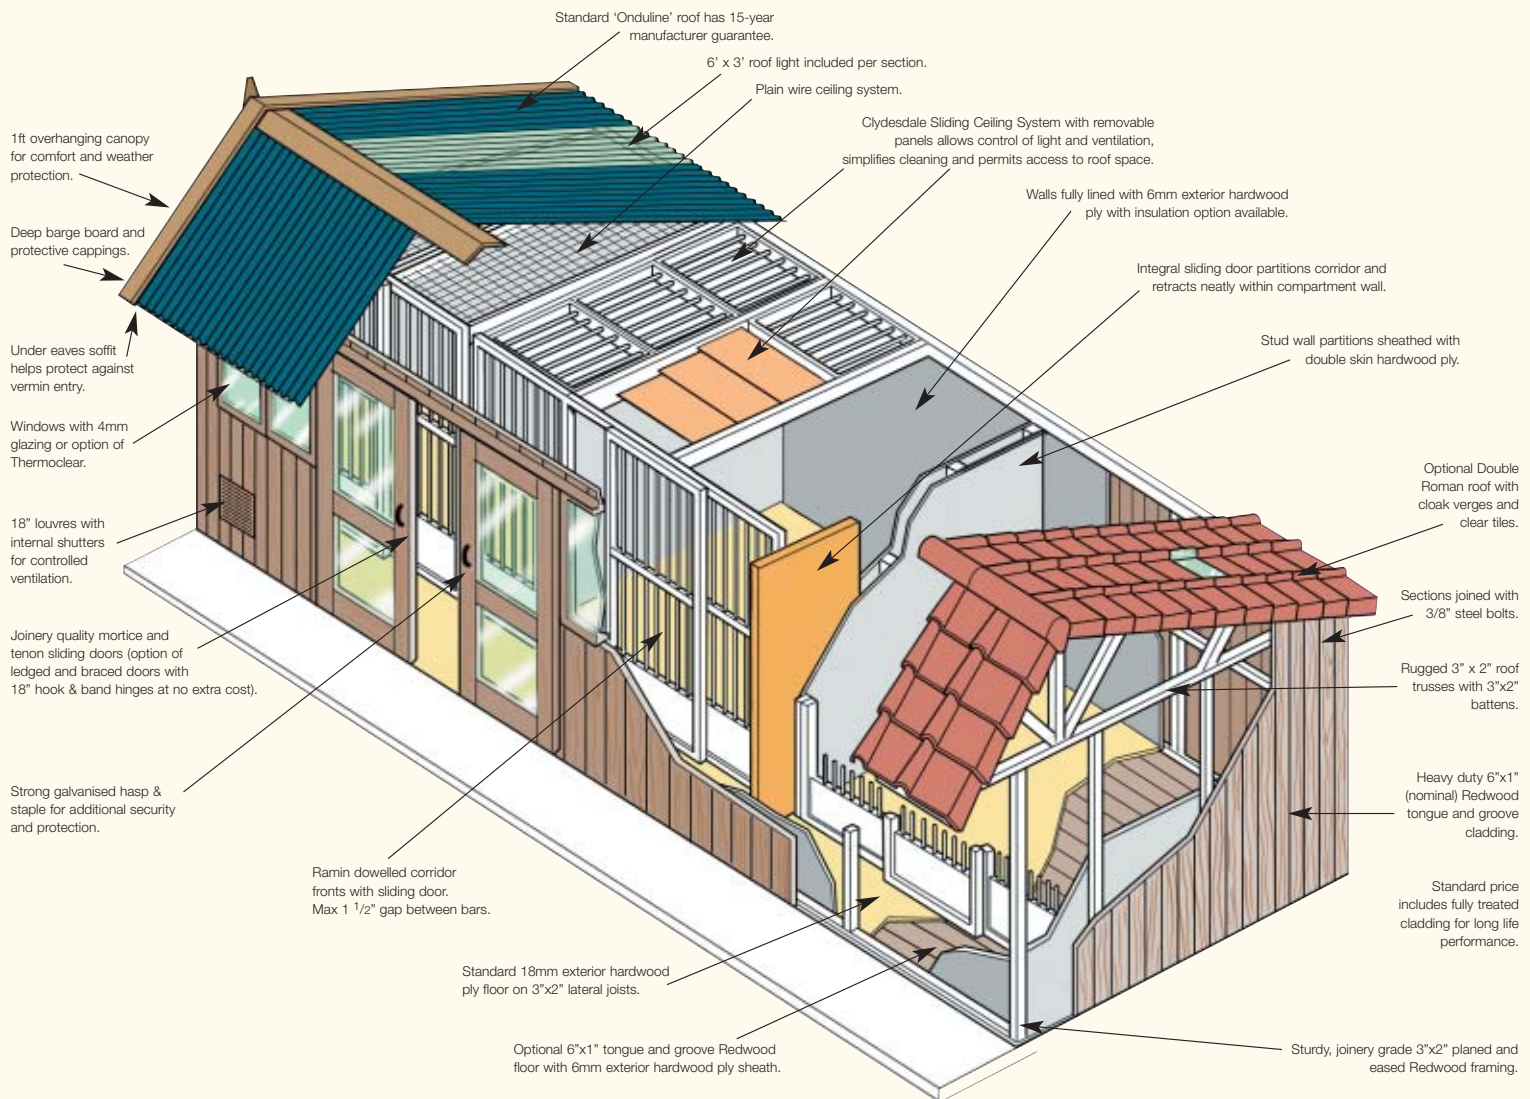

ILLUSTRATION SHOWS STANDARD CLYDESDALE
3-SECTION CORRIDOR LOFT WITH AVAILABLE OPTIONS.
(BASE NOT SUPPLIED)

Standard loft designs are available, but as all orders are handled individually we are able to customise to your exact requirements. In this way 'Clydesdale' lofts not only last a long time, they're also more satisfying to use and the completely sectional construction means we are easily able to modify or extend in the future to meet your changing needs.

Opposite: 2-section loft for exhibition pigeons
Above: Loft with aviaries, birds trap through door
Right: Piano style loft with front aviary

Our customers include many tradesmen, builders and joiners who have themselves chosen a Clydesdale loft above all others in recognition of their superior build quality. It's a true testimony to their excellent value for money, and is perhaps for the reason so many of our new customers come by way of referrals or recommendation from other Clydesdale owners.

Opposite: 72ft racing loft, birds trap through windows
Above: 2-section loft with tiled roof
Right: Racing loft with top-hung opening windows

COMPARE AND EVALUATE

Your new loft may represent a substantial investment, and we strongly recommend that customers compare our buildings first-hand with any other manufacturers being considered. Our lofts are simply without equal.

We have lofts on display at our farm workshops and visitors are always welcome by appointment. Alternatively, we can usually co-ordinate a visit to view a Clydesdale loft in your own area.

FURTHER INFORMATION

For further information, advice or quotations please contact our customer service department on **01663 746784** or visit our website at www.clydesdale-timber.co.uk

OTHER PRODUCTS

Clydesdale make a wide range of garden buildings, garages and other sectional timber buildings. Please telephone our Sales Office for further information or to discuss your requirements.

PEACE OF MIND

The unfortunate incidence of theft and vandalism is largely due to the ease with which flimsy, lower specification lofts can be forcibly entered.

Clydesdale lofts are extremely strong and resistant to entry, and can be further reinforced if required for extra protection and peace of mind.
